

DC-UPS - "ALL IN ONE"

Serie CBI

CBI2501224A
DC-UPS ALLT I ETT, 12V/24V/250W

- Kompakt enhet för DIN skena
- Remote monitoring via ethernet, Modbus/Canbus
- Kontinuerlig batteridiagnos
- Valbar laddkurva för de flesta batterityper
- Maxström 3 x I nom.

Produktbeskrivning

Adelsystem DC-UPS är en kompakt fullfjädrad DC-UPS. "All in one" syftar till att det faktiskt ligger batteriladdare, nätaggregat, batteribackup och PMM (Power Management Module) i en enhet. Tillsammans med montage på DIN-skena är detta en attraktiv produkt för såväl skåpsbyggare som montörer på fältet.

Man skall inte luras av det lilla formatet. Under skalet döljer sig en mängd funktioner man oftast finner på betydligt större produkter, så som larmfunktioner, Ethernet, automatisk batteridiagnostik, batterivårdsprogram med mera.

Då den klarar höga kortvariga laster upp till 3x nominell ström, slipper man att överdimensionera DC-UPS och således hålla ner kostad och format.

DC-UPS kan med fördel monteras in i vår EN54.4 anpassade kapsling, SFP544.

I jämförelse med en AC UPS sparar man utrymme men även underhåll och anskaffningskostnad kan minskas.

Vanliga applikationsområden är

- Remote Terminal Unit (RTU)
- Smart grid
- Manöversystem
- Larmsystem

TEKNISK DATA

Ingångsdata

Ripple, max	80 mV pp
Inspänningsområde	100 - 240 -277
Antal faser	1

Utgångsdata (internt spänningsaggreget)

Utgångsström	10 A
---------------------	------

Batteridata

Val av batterityp	Ja
Inbyggt batteritest	ja
Temperatursensor	tillbehör

Utgång last

Djupurladdningsskydd	ja
Larm vid låg spänning	ja

Övrig data

Kylning	Konvektion
Temperaturområde	-20 - +80
Reläutgång	ja, 2
Larm	ja
CANBus / MODBus	Modbus RTU / Adabus
Redundans	ja
Parallellkoppling	ja
Seriekoppling	Nej

Utförande

Bredd	50 mm
Höjd	135 mm
Djup	135 mm

Utgångsspänning	12/24 V
