

Mounting instructions, Nordmax solar panel stand NMSS3

Included components

1. 4 x long rails
2. 2 x short rails
3. 6 x screws with plastic head
4. 12 x washers
5. 6 x wing nuts
6. 6 x snap rings

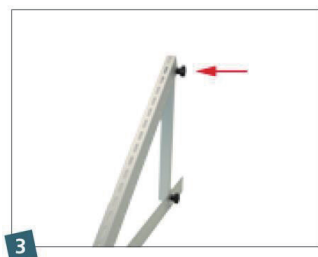

Mounting

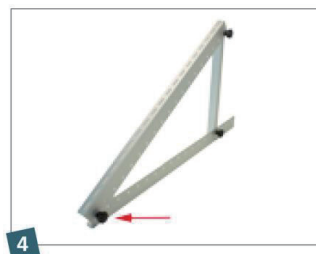

Step 1
Slip a washer on one of the screws with plastic head and stick it through one of the long and short rails.

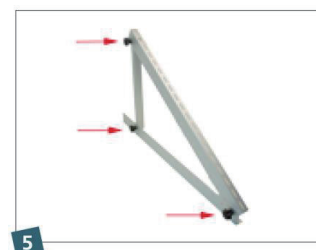

Step 2
From the other side, slip another washer, a snap ring and finally the wing nut and tighten it.

Step 3
Turn the rail upward and use another big rail to form a triangle.

Step 4
Screw everything together as mentioned in step 1 and 2.

Step 5
Repeat step 1 to 4 to create another triangle. Make sure you assemble all parts side-invertedly.

Step 6
Arrange both triangles according to the solar panels dimensions and then fix the solar panels.

Adjustment of angle

Adjust to desired angle, from 0 till 90°.
